## NEWS FROM OUR YASS PROGRAM

The new TSSI Career and Entrepreneurship Center was set-up successfully and will offer YASS students entrepreneurship classes, business and career consulting, entrepreneurial funding and support for business idea generation. All facilitated by a dedicated CEC manager on site in Accra. With this, the YASS program continues its shift towards emphasizing self-dependence and entrepreneurship, the main objectives of TSSI's Africa activities. Today, our YASS Program is supporting 70 young adults on their journey towards adulthood, on a financial, psychological and educational basis. Currently only about one of five beneficiaries attends vocational training. With our new strategy, we are hoping to lead more young adults into an empowered life as an entrepreneur, pursuing his or her own business idea.
